Spectralink 74-Series

Durable, Robust, and Feature-rich Handsets

The Spectralink 74-Series is designed for long-term dependability and increased mobility in specialized working environments. The functionalities of the robust and feature-rich handsets make them a valuable working tool for personnel within industries such as retail, healthcare, and gas and oil. Moreover, the flexible menu structure allows the handsets to be customized to specific vertical markets.

With Spectralink 74-Series, employees will benefit from being able to move around the company freely while constantly being accessible.

For the employee on-the-move, battery life is of utmost importance. The Spectralink 74-Series uses temperature compensated charging, which allows for quick recharging without damaging the batteries.

Spectralink 7420 Handset

The Spectralink 7420 is a robust, well-designed, feature-rich, and price competitive handset. It meets the demands for mobility and is built for long-term dependability in harsh environments.

Spectralink 7440 Handset

The Spectralink 7440 extends the capabilities of the Spectralink 7420. With the possibility of attaching a headset, it allows users to enjoy hands-free mobility. Furthermore, the Spectralink 7440 is designed for environments where hygiene is important.

Spectralink 7480 Handset

The Spectralink 7480 is intrinsically safe and designed for environments with special conditions and regulations. It is IP 64 classified for the US as well as ATEX and IEC approved and MET certified according to European and international standards. The Spectralink 7480 is the ultimate handset for potentially explosive working environments.

BENEFITS

- Customize the handset with third-party applications

- Delivers exceptional voice quality without any background noise, echo, delay, or interruptions

- Resistant to drops and shocks making the handsets more durable

- Allows mobile employees to work more efficiently with extended battery life and quick recharging
